## PROFESSIONAL SUMMARY

---

Flutter Mobile App Developer with 3 years of hands-on experience, specializing in building scalable, responsive, and user-centric mobile applications. Strong expertise in Flutter, Dart, Firebase, REST APIs, CI/CD, GetX, Provider BLoC and deployment to Google Play & App Store Expert. Experienced in e-commerce, fintech, health, funds and service-based apps. Passionate about performance optimization, clean architecture, and pixel-perfect UI.

## Work history

---

<b>Software Engineer (Flutter)</b>	05/2023 – Present
• As a Software Engineer, I took on expanded responsibilities, including deploying applications to both the App Store and Google Play Store. I worked on various customizations projects, delivering tailored solutions to meet specific client requirements. I also focused on diagnosing and fixing bugs, resulting in improved application performance and user experience. Additionally, I streamlined development workflow and collaborated closely with clients and team members to ensure timely, high-quality deliveries (e.g., <i>reduced crash rate by 20%, improved load time by 15%, or completed 10+ client customizations</i> ).	Dhaka, Bangladesh
<b>Mobile App Developer</b>	10/2022 – 04/2023
• During my time as a Junior Developer, I strengthened my design skills by delivering pixel-perfect UI implementations across multiple Flutter projects. I worked on API integrations, connecting apps with backend services to enhance functionality. I also supported 20–25 clients daily, providing clear guidance and timely solutions, which improved client satisfaction and contributed to increased ratings and sales.	Dhaka, Bangladesh

## EDUCATION

---

<b>(Bsc) Computer science and engineering</b> , Sonargaon University	01/2022 – 01/2025
<b>(Diploma) Computer technology</b> , Magura Polytechnic Institute	07/2017 – 07/2021
